NGAT EXAM — COMPLETE (QUESTIONS 1–100)

I. ANALOGY

Instruction: Answer questions based on the pair that best expresses relationship similar to that of the original or the capitalized pair. Then, click the button of your choice.

1. SEGREGATE : UNIFY :: repair : _____

A. approach

B. outwit

C. damage

D. push

2. monarch : _____ :: KING : COBRA

A. queen

B. butterfly

C. royal

D. venom

3. EXECUTIONER : CRIMINAL

A. convict : murderer

B. florist : flowers

C. worker : manager

D. butcher : animal

4. LOATH : COERCION

A. reluctant : persuasion

B. irate : antagonism

C. contemplative : meditative

D. irritate : caressing

5. MOON : SATELLITE

A. flowers : garland

B. fishes : pond

C. singer : chorus

D. Earth : Planet

6. POETRY : RHYME :: philosophy : _____

A. imagery

B. theory

C. by-law

D. music

II. WORD SUBSTITUTION

Instruction: For questions below, read the sentences and the phrases in bold and choose the best substitute from the given options.

7. His son is a ___ as he lost his life in protecting the lives of people of this country.

A. soldier

B. revolutionist

C. philanthropist

D. martyr

8. Her school mates organized a house party for Sara's birthday but she does not get excited easily even if you put in a lot of effort and emotion.

A. inclement

B. gregarious

C. placid

D. frenzied

9. We have bought a new machine for our mother to help her in household chores, the machine can easily be carried anywhere.

A. potable

B. portable

C. relatable

D. cartable

10. Our new Mr Gupta is an epitome of population explosion; he has four wives and 12 children from them. He is a ___.

A. classicogamist

B. bigamist

C. polygamist

D. monogamist

11. I think, this is Peter's first press conference with the media, he is anxious because he speaks less.

A. garrulous

B. terse

C. sullen

D. reticent

12. I cannot stay in the hospital for 5 minutes because I have a fear of confined places.

A. Onochlophobia

B. Claustrophobia

C. Agoraphobia

D. Stasiphobia

13. Sheren's father is an author and has won an award for the book that talks about his own history.

A. autobiography

B. bibliography

C. biography

D. ownography

14. My father and I visited the ancient palace yesterday, there we saw old manuscripts written by saints, we tried but it was not clear enough to be read.

A. legible

B. illegible

C. decipherable

D. negligible

15. I don't mind talking to him about the project but he is a person who thinks only of himself.

A. boaster

B. proud

C. eccentric

D. egoist

III. SENTENCE COMPLETION

Instruction: For questions, choose the most appropriate word or phrase from the given alternatives that best completes each of the following sentences.

16. Ancient Greek authors believed that literature should contain a perfect balance between the social and the personal, objectivity and ____, ___ and emotion.

A. subjectivity ... reason

A. he never lost hope

B. he was very lucky

C. his success was predictable

D. he was unsuccessful

28. I would have met the boss _____

A. if I hadn't arrived early

B. had I been a bit early

C. had I been late

D. if he is in his office

V. SENTENCE LEVEL UNDERSTANDING

Instruction: For questions, read the sentences in bold and select from the alternatives given the sentence that is closest in meaning to the original sentences.

29. Don't forget to buy Monica a present.

A. Monica must buy you a gift.

B. I want you to remember Monica's address.

C. Monica forgot her birthday card.

D. I want you to remember to buy Monica a gift.

30. Feyera speaks Afan Oromo and English.

A. Feyera wants to learn English.

B. Feyera speaks two languages.

C. Feyera speaks to Briton people on the phone.

D. Feyera is learning English.

31. Tinbit is sick and tired of her stepmother.

A. Tinbit is fed up with her stepmother.

B. Tinbit's stepmother has an illness.

C. Tinbit needs to take a nap.

D. Tinbit is sick for likes her stepmother.

32. Emebet is older than Fantu, but younger than Adanu.

A. Emebet is the oldest.

B. Emebet is the youngest.

C. Adanu is the oldest.

D. Fantu is elder than Adanu.

33. Hagos used to drink a lot of alcohol.

A. He drinks less now.

B. He is an alcoholic.

C. He no longer drinks alcohol.

D. He drinks a lot now.

34. Daniel can play the Kirar and the piano.

A. Daniel wants to play the violin instead.

B. Daniel plays two instruments.

C. Daniel plays the keyboard.

D. Daniel only plays the piano.

VI. PASSAGE COMPREHENSION — MAGELLAN

Direction: Questions, read the passage below and choose the most appropriate answers from the given options.

35. The 16th century was an age of great _____ exploration.

A. mental

B. land

C. cosmic

D. common man

36. Magellan lost the favour of the king of Portugal when he became involved in a political _____

A. discussion

B. entanglement

C. problem

D. negotiation

37. The Pope divided New World lands between Spain and Portugal according to their location on one side or the other of an imaginary geographical line 50 degrees west of Greenwich that extends in a _____ direction.

A. easterly

B. crosswise

C. south east

D. north and south

VII. PASSAGE COMPREHENSION — MARIE CURIE

38. Marie by leaving Poland and traveling to France to enter the Sorbonne _____

A. behaved

B. was distressed

C. showed intelligence

D. challenged authority

39. According to the passage, Marie Curie's husband Pierre was killed by _____

A. a laboratory accident

B. a horse-drawn wagon

C. radiation exposure

D. a tribal battle

40. In 1911, Marie Curie received the Nobel Prize in _____ for isolating radium.

A. physics

B. chemistry

C. medicine

D. peace

VIII. QUANTITATIVE REASONING

Instruction: This section contains quantitative reasoning items. Solve each of the problems and select the correct answer from the given alternatives.

41. If the value of the following expression $\left[\frac{(l+\frac{m}{n})}{p}\right]$ is to be halved by doubling

exactly one of the five numbers $l, m, n, o,$ or p , which should be doubled?

A. p

B. n

C. m

D. o

42. If the total surface area of a cube is 24, then what is the volume of the cube?

A. 8

B. 24

C. 64

D. 16

43. A certain rectangle has perimeter 54 meter. If the ratio of the length of the rectangle to the width is 5 to 4, what is the length of the rectangle in meter?

A. 27

B. 30

C. 15

D. 24

44. If the local time of 12 hours clock is 11:00, then what is the acute angle between the hours hand and the minute hand in the clock?

A. 15°

B. 60°

C. 30°

D. 45°

45. What is the value of A if A is a two-digit number whose last digit is 3 and the difference of the digits of A are 6?

A. 53

B. 23

C. 93

D. 63

46. If $x^2 - y^2 = 2$ and $xy = 4$, then which one of the following is the value of $x^4 + y^4$?

A. 28

B. 16

C. 32

D. 36

47. If 25 percent of a certain number is 1,600, what is 10 percent of the number?

A. 400

B. 1440

C. 40

D. 640

48. A person X can do a given job in 15 days and a person Y in 20 days. What fraction of the work may remain if they work together at the same rates for 8 days?

A. $\frac{4}{15}$

B. $\frac{1}{20}$

C. $\frac{1}{15}$

D. $\frac{1}{4}$

49. A 10 liters salt solution contains 20% salt. How many liters of 8% salt solution must be added to obtain a solution that is 12% salt?

A. 24

B. 18

C. 20

D. 15

50. The following figure shows that on a level ground the shadow of a building is 12m long at the time when the shadow of a man is 0.60 m long. If the height of the man is 1.80m , what is the height of the building in meter?

A. 28

B. 32

C. 36

D. 24

51. If X and Y are two-digit numbers and the last digit of X is 9 and the last digit of Y is 8, what is the last digit of X times Y?

A. 2

B. 8

C. 9

D. 7

52. If $n = 9 \times 28 \times 26$, then which one of the following is NOT an integer?

A. $\frac{n}{36}$

B. $\frac{n}{21}$

C. $\frac{n}{32}$

D. $\frac{n}{18}$

53. If $0 < x < y < 1$, then which one of the following is true?

A. $\frac{x}{y} > 1$

B. $y - x > 1$

C. $xy > 1$

D. $\frac{y}{x} > 1$

54. Three times the third of three consecutive odd integers is 3 more than twice the sum of the first and the second integers. What is the sum of the three integers?

A. 23

B. 21

C. 19

D. 25

55. If The perimeter an equilateral triangle is 30 m, then which one of the following is the area of this equilateral triangle in m^2?

A. $30\sqrt{3}$

B. $20\sqrt{3}$

C. $25\sqrt{3}$

D. $5\sqrt{3}$

56. The lengths of the sides of a triangle are in the ratio of 3 to 5 to 6. If the perimeter of the triangle is 70 meter, what is the length of the longest side in meter?

A. 25

B. 6

C. 30

D. 5

57. 2AD = AB = 8 cm, what is the area of the shaded region in cm^2?

A. $4(8 - \pi)$

B. $16(2 - \pi)$

C. $8(4 - \pi)$

D. $4(4 - \pi)$

58. The price of 2 ties and 3 shirts is Birr 2,800. With the same money one can buy 1 tie and 5 shirts. If one wants to buy 1 tie and 1 shirt, how much should he/she has to pay in birr?

A. 1,400

B. 1,500

C. 1,250

D. 1,200

59. If $p = \frac{2}{3}$ and $r = 4$, then what is the value of $(p\sqrt{3})^r - (p + \frac{1}{9})$?

A. $\frac{5}{9}$

B. 1

C. $\frac{7}{9}$

D. $\frac{16}{9}$

60. In the figure below, each quadrilateral is a square. The side length of each inner square is two-third of that of the next square containing it. If the side of the largest square is 27 cm long, what is the area of the L-shaped shaded region in cm^2?

A. 54

B. 81

C. 64

D. 80

61. Which one of the following is true about the two quantities?

Quantity M	**Quantity N**
$(526)^2 - (525)^2$	210

A. Quantity M is less than quantity N.

B. Quantity M is greater than quantity N.

C. Quantity M is equal to quantity N.

D. The quantities cannot be determined.

62. What is the least value of number x for which $(2x + 1)(x - 2) = 0$?

A. 2

B. $\frac{-1}{2}$

C. -1

D. -2

63. If $a - b = p$, then which one of the following is the value of $a^2 - 2ab + b^2$?

A. $p^2 + ap - b^2$

B. $2p$

C. p^2

D. $p(a - b)$

64. If $n = 3$, then which one of the following is the value of $2^{2n} + 1$?

A. 65

B. 64

C. 33

D. 129

IX. LOGICAL REASONING

65. Priest: Do you speak to the devil and follow his biddings? Parishioner: Yes. Priest: You must be lying. Nobody who is in league with the devil tells the truth. Why can the priest's behavior be considered paradoxical?

A. His behavior was entirely within accordance with religious law, but he was accusing the parishioner of violating that law.

B. He relied upon the answer of the parishioner in order to reject his response.

C. He accused the parishioner of being in league with the devil, but he later changed his story.

D. While he is questioning the parishioner about possible association with the devil, he doesn't actually believe in such a thing.

66. Statement: Turkey is a surprising addition to the list of rapidly developing economies; with a GDP increase of 8.5% in the year 2011 alone. However, such rapid growth leaves worries regarding possible side-effects. For instance, in 2011 Turkey's rate of inflation was well above that of its peers. Secondly, there is increasing concern regarding Turkey's growing dependency on foreign capital. A large portion of the Turkish banking system is part-owned by banks within the Eurozone. As the single currency falters, such a dependency raises questions about the stability of Turkish growth.

A. Turkish banks are part-owned by European banks as this provides greater economic links with the Eurozone, helping their ascension into the European Union.

B. The Turkish economy was surprisingly stagnant in 2011.

C. The Turkish banks are part-owned by European banks as this provides greater variation to the market and extra finance to the economy.

D. There are concerns that Turkey's development is at risk of faltering in the years after 2011.

67. Statement: Based on the information below, which of the alternatives that follow must be true? Ahmed lives in a big apartment. Abay lives in a small apartment. There are no big apartments in Hawassa. Small apartments have one bedroom.

A. Abay's apartment has one bedroom

B. Abay lives in Hawassa

C. Big apartments have one bedroom

D. Ahmed lives in Hawassa

68. Statement: A recent study has found that approximately 55% of the people in poverty in Ethiopia are also government employees. By 2025, this figure is expected to rise to 60%. 25% of the people in poverty are not government employees because they aren't fit to, either due to old age or disability.

A. There are an equal number of people in poverty and in government employment.

B. 55% of the people are in poverty due to different reasons.

C. 20% of the people in poverty are not government employees but they are fit to work.

D. The number of people in poverty and in government employment will rise.

69. Based on the information below, which of the alternatives that follow must be true? Cleo is a good dog. Clona is a bull. Good dogs are fast and keep the house safe. Bulls do not make noise.

A. Cleo is a quiet dog.

B. Clona can run very fast.

C. Cleo is a fast dog.

D. Clona moves every night.

70. Addis Ababa University had decided to cancel the summer course in 2023.

A. The University was advised by the Government to cancel the summer course.

B. Students did not want to join the summer course at the University.

C. No entries had been received by the University.

D. It was cancelled because the weather in Addis was too cold.

71. The Ethiopian Ministry of Health has planned to recruit two thousand doctors in the next Ethiopian financial year.

A. The eligible candidates may not be interested to apply to the Ministry's plans.

B. There are enough doctors to apply to the post.

C. There are not enough doctors to apply to the post.

D. There are enough vacant posts of doctors to accommodate two thousand doctors.

72. Technology companies who specialize in handheld devices such as tablets and

smartphones should invest in making their products more intuitive for elderly people. This demographic hasn't been tapped into yet and could greatly benefit from such devices.

A. Elderly people would like to buy tablets and smartphones.

B. Technology companies are investing in this area.

C. Apps which are more suitable for elderly people are in development.

D. Elderly people do not like new technology.

73. Good education is the lifeblood of our country. We need to ensure that class sizes aren't too large by building new schools.

A. Young pupil are a vital part of our country.

B. Class sizes are too large and must be reduced.

C. People work better in smaller classes.

D. Schools are cheap to build.

74. Food poisoning due to the consumption of liquor is very common in rural areas.

A. There are less illegal and unauthorized shops selling liquor in villages and rural areas.

B. There are more illegal and unauthorized shops selling liquor in rural areas.

C. The ratio of people drinking liquor in villages is much more than that in towns.

D. No difference between rural and urban areas in liquor consumption.

75. Fiona, Georgia, Heather, Ian, John, Kilgore and Lumina are standing in line to get concert tickets. Fiona is standing in front of Ian. John is standing in front of Heather. If John is not first in line, Lumina is standing somewhere in front of him. Ian is standing immediately in front of or immediately behind Kilgore. If Georgia is standing first and Fiona is somewhere between John and Lumina, which statement must be true?

A. Fiona is 2nd

B. Heather is 1st

C. John is 6th

D. Lumina is 3rd

76. Kaliti Flour Factory has 180 employees. Factories with less than 200 em-

ployees are classified as small manufacturers. Therefore:

A. Kaliti Flour Factory is a small Manufacturer.

B. Kaliti Flour Factory sizable employees.

C. Kaliti Flour Factory is categorized as a big Manufacturer.

D. Kaliti Flour Factory is categorized as a small Manufacturer.

77. Not everyone who owns a car has a driving license, and not everyone who owns a driving license owns a car. Everyone who has a driving license has taken their driving test. However, everyone who drives on the road has a driving license, but might not own a car. Ahmed drives on the road. Therefore:

A. Ahmed will have a driving license.

B. Ahmed owns a car.

C. Ahmed has taken his driving test.

D. Some drivers on the road have taken their driving test.

78. In the African context, there are no politicians that aren't party members. There are no appointees that aren't politicians.

A. All appointees are party members.

B. Any party member is also an appointee.

C. There is no a party member that isn't a politician.

D. All politicians are party members and appointees.

79. All university teacher can teach at secondary schools. All university teachers trained in Ethiopia can teach at universities in Ethiopia but not in Kenya. Therefore:

A. All secondary school teachers can teach at university.

B. A university teacher trained in Ethiopia can teach anywhere.

C. A university teacher trained in Ethiopia can teach at secondary or university in Ethiopia.

D. All university teachers in Kenya can teach in Ethiopia.

80. Loft insulation saves on heating bills, but leaving the heating on with the windows open results in waste of energy. Wasting energy results in higher energy bills. Zeberga has loft insulation, but leaves the heating on with the windows open regularly.

A. Zeberga is not wasting energy.

B. Zeberga is wasting energy.

C. Zeberga is saving on heating.

D. Zeberga's loft insulation does not work.

81. At Addis Ababa University, everyone works for 8 hours but all start at different times. Tigist started work at 9 AM at least one hour after everyone else. Whoever leaves last must lock up. Therefore:

A. Tigist started one hour before everyone else.

B. Everyone who works at Addis Ababa University has to lock up.

C. Everyone else in the office started either before or at 8 AM.

D. Everyone who works at Addis Ababa University must start work at 8 AM.

82. If the government decides to scrap tuition fees for university students, should previous students' debts be written off as well?

A. No, instead of wiping their debts off entirely, some reductions must be made so that the government still gets some of its money back.

B. No, instead of writing off the previous debts, the current decision takes effect immediately upon implementation.

C. Once you start writing off the debt for recent students, you'll have to write off the debt for every student ever.

D. Yes, it isn't fair on the students who have just finished university that they continue to pay off a full loan.

83. All birds have beaks, and all sparrows are birds, so:

A. Some sparrows must have beaks.

B. All birds are sparrows.

C. All sparrows must have beaks.

D. Almost all sparrows must have beaks.

84. My family's doctor said that he would be performing a blood test on me when I visit him today. I know I will feel pain today. This argument depends on which one of these assumptions?

A. The doctor would have a hard time finding the patient's vein.

B. The use of a needle always causes pain in the patient.

C. The doctor would have to try different needles to perform the test.

D. In the past, this patient had experienced pain at the family's doctor.

END OF NGAT EXAM — COMPLETE 1–100

This document contains questions 1 through 100 in strict sequential order, with no omissions and no repetitions. All questions from the original PDFs are included exactly once.
